

Height Adjustable Meeting & Conference Tables

Making Group Work Healthy and Productive

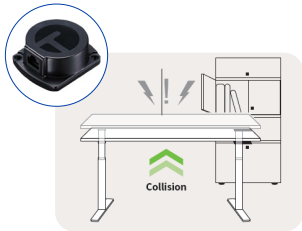

The upCentric Electric Height Adjustable Meeting and Conference Tables allow attendees to easily alternate between seated and standing positions, thus reducing stress and muscle tension, while boosting energy and increasing team productivity.

Gyro Sensor - Anti-Collision Solution

All upCentric height adjustable tables include a patented Gyro sensor anti-collision system for enhanced safety and reduced injuries and damage to property.

Pre-settable Memory Positions - One-Touch Adjustment

Moving the table is intuitive with the easy-to-use up/down control and four settable memory positions. Simply press the button with preset position and the table will automatically adjust to your desired position.
